RESULTS OF FIRST WEEK OF DEER SEASON

Each year for the past several years the Department of Lands and Forests has set up deer checking stations at which all persons travelling out of the deer hunting areas are asked to stop whether or not they participated in the hunt.

Although this undoubtedly temporarily inconveniences those motorists who are just "out for a drive", or perhaps returning from a last visit to the cottage, we hope they will realize the effectiveness of this survey depends on our being able to stop all cars in order to search those who actually took part in the hunt.

We sincerely appreciate the co-operation of those in the category of non-hunters who accept the delay philosophically and perhaps even take the opportunity to inquire as to the progress and success of the hunt.

As in past years checking stations were set up on Highway 35, two miles north of Norland, at Union Creek near the junction of Highways 500 and 121, and at Burleigh Falls on Highway 28.

The results so far indicate a decline in hunter success for the first week when compared with some past years as shown on the following table:

1963 Hunter success	20.6 per cent
1961 Hunter success	29.7 per cent
1960 Hunter success	26.0 per cent
1959 Hunter success	22.9 per cent

This year apparently just a shade over one in every five hunters was successful in bagging a deer.

During Saturday and Sunday over 2,400 hunters who had hunted in the northern half of the Lindsay district were asked for details of their hunt such as the

name of the township in which they hunted, the number of days spent hunting, and whether they were in an organized camp or not.

If they had deer, these were examined for sex and age, and in some cases weight and the date each was killed, recorded.

A total of 496 deer, 14 moose, nine bears and one timber wolf were recorded as being taken in the Lindsay district.

In addition 122 deer that had been bagged by hunters hunting in the adjacent forest districts of Twed, Pembroke and Parry Sound were examined.

The age data compiled to date does not indicate any serious shortage of a particular year class, therefore we must assume the deer herd has recovered well from the severe winters of 58-59 and 59-60.

Fawns appear in good supply this year and all other year classes normal with the exception of the 2½ year olds which can perhaps be considered slightly out of proportion.

Inasmuch as the deer population did not fare badly during the winter of 1962-63 we must ascribe the lack of success this season to the inclemency of the weather, which on at least three of the six days would certainly discourage hunters.

However, the over all success figure is influenced to a substantial degree by the casual hunters' success, which is far below that of those hunting from organized camps.

LEGION OFFICIAL IN SUNNYBROOK

Canadian Legion F-4 Zone Commander Ian Scott is in Sunnybrook Hospital in Toronto for treatment. He left Lindsay for Sunnybrook on Tuesday and expects to be in hospital for at least two weeks.

ONLY OPEN SHORT TIME, MONEY STOLEN FROM LANES

A sum of money understood to be between \$40 and \$50 has been reported as stolen from the Minden Bowling Lanes. Police said that the money was taken on Saturday during the lunch hour when manager Les Winch was absent from the front portion of the building.

Police said that it was possible that someone had remained hidden in the bowling lane during the lunch hour and waited until Mr. Winch had left the front of the building before taking the money from the cash drawer and leaving.

The theft is under investigation by Constable Earl Bush of Minden detachment of the OPP.

FAILED TO REMAIN, NO LICENSE FINED \$200

A Norland youth — Stanley E. Dusty, convicted of failing to remain at the scene of an accident and not having a driver's licence, was fined a total of \$200 on the two charges in Lindsay court.

Investigating officer OPP Const. A. J. Ka, of Cobocok, testified that he had been called to the scene of an accident at Victoria Road and found two cars locked together, one of them belonging to a John Bell of Toronto, who told him he had found the cars that way but there was no sign of the other driver.

After further investigation the accused had been interviewed and admitted to being the driver of the other car, said the officer. Total property damage was about \$600 and there were no injuries, said the constable.

SPLIT ON SITE CHOICE

Considerable comment has been made in Minden for and against the proposed location for the new Municipal Hall. Minden council have decided to locate the building in front of the existing arena facing the back of the main street buildings.

Council claim that they are looking forward into the future with the Municipal Hall in this location, with good grading and improved parking in the area it can improve this portion of the town and make it a most presentable part of the downtown area.

From a purely functional point of view there is nothing wrong with the proposed location. The area provides ample parking, it is central for the fire truck and ambulance and adjacent to the arena, and the building will, over a period of time, become part of a new planned auditorium and arena building. It is felt too that the inclusion of as many public services as possible together will in the long run reduce operating costs.

News and Views

from the Minister's Study

The Sunday School has long been the centre of Christian Education in the Protestant Church. Most faithful church people will readily acknowledge the lasting influence of one or more Sunday School teachers upon their lives. And our Sunday School at Minden United Church has not been lacking in the enthusiasm and the dedication of its teachers. The conviction is held by the superintendents and the staff that Christian teaching that is worth doing is worth doing well. Of recent years, with the attendance running almost as high as one hundred and fifty, we have realized that the effectiveness of our teachers has been limited greatly by overcrowding, which causes a good deal of confusion and narrows the scope of class activity tremendously.

After careful consideration of the problems over many months, it was decided at a staff meeting in October to make some far-reaching changes in the organization of the Church School to begin on Sunday, November 24th, which it is hoped may open up many new opportunities for our teachers. The Senior School, consisting of the Junior, Intermediate, Senior and Adult Departments, will continue to meet at the regular hour of 9:45 a.m., and the main difference will be that all classes will have space in the Sunday School, leaving the Sanctuary free for those who gather early for the Worship Service. The Junior School, including the Nursery, Kindergarten and Primary classes, will meet during the regular Sunday

Church Service. The Nursery and Kindergarten classes will gather in their class in the Church Hall at 11 o'clock, while the Primary Classes will take part in the Church Service and then go downstairs during the singing of the children's hymn for their class sessions. In this way children of six, seven and eight years will be introduced to Christian Worship and at the same time a closer link will be established between the congregation and the Sunday School, while it makes it easier for families to attend church together.

All of these changes are meant to lay the ground-work for the new course of study to be used in our Sunday Schools beginning next autumn. Over a period of the next few years, we may expect to see our Sunday School take on a radically new appearance from the nursery to the adult departments as the most effective teaching methods are introduced into the program of Christian education.

The first step will be taken in the Nursery and Kindergarten classes on the twenty-fourth of November when a "TEACHING TEAM" will replace individual teachers, on the proven and tested belief that three heads are better than one. This recognizes that in Christian Education, as in all fields of education, our ways and means of teaching have changed. For one thing, we have a much better understanding of the child, how he grows and develops. We know that the kindergarten child learns chiefly through play and

so we will build our kindergarten church school on a play program. We will be providing toys with which he can express himself and learn to play with other children. Of course, a great deal still depends upon the teacher. I think we will be expecting more of our teachers. Besides a love and devotion, we will expect a certain understanding of the children in her group, and a knowledge of new methods and materials.

Not only will we be seeking to provide a setting in which the small child just beginning Sunday School will feel happy and relaxed, but we are seeking to create an environment in which the child can be guided in Christian living. A child, caught in a moment of wonderment beside the worship centre, can be helped to think of God as the Creator of all lovely things, and the child snatching a toy from a play-fellow can be helped to share and tolerate. These are just a couple of basic Christian principles which can be applied to the child's own experiences. I believe that we can call them pretty sound teaching methods. So, a small, but important new beginning is being made in the teaching of the Christian faith to our children. We do not anticipate all clear sailing, but firmly believe that with the co-operation and interest of parents and the prayers and support of the whole congregation, it WILL work for the better training of our children and the greater glory of our Lord.

\$53,700 TENDER **ACCEPTED FOR** **MINDEN MUNICIPAL** **BUILDING**

The council of Anson, Hindon and Minden has accepted the \$53,710 tender of Gersline Construction Company for the construction of a municipal building. The council has been without a home since they sold the former council offices earlier this year and which have since been turned into a bowling lane. The proposed new municipal building which will include offices, an ambulance garage and a fire hall will be located in front of the existing recreation centre. Considerable opposition has been voiced to its location by many residents who feel that the offices should be located elsewhere. The front of the new building will overlook the rear portions of the premises on the main street.

Anson, Hindon and Minden council also passed a bylaw requesting the Ontario Municipal Board to approve an expenditure of \$60,000 for the municipal building to include the ambulance garage and fire hall and permit a debenture issue of \$40,000 required to finance the project.

Council agreed to seek permission to store the fire truck in the municipal garage. The fire reel has been standing outside since the sale of the former offices. Arrangements were made to store the ambulance in one of the local garages. Complaints had been made to ambulance drivers that the vehicle was extremely cold due to it being left outside all the time.

Application was made earlier for grants under the winter works program for work on the foundation of the proposed municipal building.

APPROVE WINTER WORKS

Anson, Hindon and Minden council approved a winter works program of \$2,000, the work will include road brushing, installation of guard posts and up to \$1,000 for sidewalk improvement in the municipality.

BOY SCOUTS
BUILD
GOOD CITIZENS

"WHISPERING WAVES"

By Tony Jock

High up on a cliff
 Overlooking the expansiveness
 That is the ocean;
 There, under a storm-wrecked
 tree

Feeling the sea breezes
 Wafting around my feet, salty.

Far below, there is
 The vibrant sound
 Of small rumbles that merge
 To make the roaring and insane
 surf;

While the perfume of night
 Assails my nostrils . . .

This is living . . .

The rhythmic pounding
 Banishes the city noises
 From my cluttered brain . . .

It will be easy to return
 To work and city-living,
 But only to come here again
 To wrap around me the friend-
 liness
 Of the westerly winds, and
 The solitude that is embodied
 In the whispering of the waves.

GULL RIVER IS UNPLEASANT SIGHT

The most baffling thing about the water levels in the Gull River is the apathy many people seem to show towards the situation.

Here we have a beautiful river — a tourist attraction, perhaps the most attractive single feature Minden has that is permitted to be drained so low that it presents an unpleasant sight of mud, rocks and high-beached boats with a pathetic trickle of water.

We've heard people say — it only happens at weekends — but this isn't true. This past week the water was so low many pumps feeding from the river sucked air, and the general impression a visitor to town gets of the river is very poor indeed.

In many communities treatment of a natural resource like this would cause loud and positive outcries — why not here?

LET'S KEEP THE CHAMBER OF COMMERCE

At a recent meeting of the directors of the Chamber of Commerce a notice of motion was passed to be presented at the annual meeting to change the name of the association from the Haliburton Chamber of Commerce to the Highlands of Haliburton Tourist and Development Association. In some respects the change might appear to be beneficial to the organization, however, the loss would almost certainly outweigh the benefits that would be achieved. The phrase Chamber of Commerce is not only familiar to Ontario and all of Canada but is also a byword for the promotion of industry in other countries, while the phrase "Highlands of Haliburton Tourist and Development Association" would have little or no punch in areas other than here. It is quite appropriate, however, to have a committee within the Chamber of Commerce that would investigate and promote new industry and development. A hard working committee of this sort would certainly be beneficial to the County.

Correspondence for the Minden Progress should be addressed to Box No. 264, Minden.

THE SEAL OF

PROGRESS IN HEALTH

When Christmas Seals were first launched in this continent it was to keep a little sanatorium for eight patients from closing. That was the object of Miss Emily Bissell who first promoted the sale of the Christmas seals. Now, more than 50 years later, it is interesting to note that when the campaign was failing and Miss Bissell sought the help of a newspaper man, Leigh Mitchell Hodges, what fired his imagination was the possibilities of educating the public which the Christmas seals offered. It was on this basis that he appealed to the managing editor for the paper's support — and got it.

Over the years the annual Christmas seal campaign has surpassed the hopes of the founders on both counts. It has raised millions of dollars in two score countries. Every year the public has been told what was most needed for the advance against this disease and every year the public has responded. Every year the campaign for funds has been accompanied by an education campaign.

There was a time when the educational campaign stressed the fact that tuberculosis was curable. This was in a day when few people believed that it was. They believed it was hereditary, infectious and incurable. Then as sanatorium treatment proved that patients recovered there was stress on the fact that tuberculosis was not hereditary, that it was caused by infection which spread from the sick to the well.

As sanatoria became more numerous and diagnostic services more widely available the importance of treatment became evident and the annual Christmas seal campaign stressed "early discovery means early recovery". When the development of miniature X-ray film made chest X-ray possible on a mass basis even more emphasis was laid on the importance of early diagnosis, both from the standpoint of the patient who had a better chance of getting his health back and his contacts who were in as much danger of being infected if disease was discovered and treated before symptoms developed.

There are still thousands of Canadians sidestepping this information. Despite the availability of clinics patients still are

found with far advanced disease as the patient feels fine. Neglect before starting treatment. This spells trouble. Relapse is dangerous not only to the patient but keeps the chain of infection going. to those around him.

In recent years another point has been stressed. The importance of patients faithfully taking drugs after discharge. Nowadays time in sanatorium is often only six months but treatment time is eighteen months to two years for the patient is to take drugs at home. To an outsider this looks easy. It is hard, especially

In the next few weeks we will be asked to provide money for our Tuberculosis Association's prevention program. We will be told about the importance of finding cases early, treating them promptly and providing adequate follow up for them after they leave sanatorium.

EDITOR ON SCENE OF FIRE

The editor was on the scene of a hot story on Tuesday evening when a fire broke out in Norman Craig's upstairs apartment while he was drinking coffee and conversing with Norman in the coffee bar.

The fire was located in a console television set which was belching out thick, black, choking smoke. The room was rapidly filled with the choking fumes and the burning television was quickly removed from the apartment outside. "No wonder people quickly choke to death in fires," remarked Mrs. Craig as the three of us tried desperately to clear our throats!

Curiously, two other reports of televisions burning out have been received, both having happened the evening before. Ervin House said that his set "shot out a blue flame" and the set in the lounge of the Dominion Hotel is also reported to have burnt.

CARNIVAL COMMITTEE TO

MEET ON NOV. 20

A meeting will be held at the Minden Recreation Centre on Wednesday, November 20th at 8:15 p.m. to discuss plans for the forthcoming Carnival and to form additional committees where necessary. The following are committee chairmen: Broomball: Allan Conybare; Figure Skating, Marg McKay; Curling, Roy Windover; Fish Derby, Rod and Gun Club; Dance, Bob Harvey Jr.; Carnival Queen, Pauline La Hay; Jam Can Curling, Holly Cooper; Parade, Gord McManus; Events Committee, J. O. Jackson; Clown Band, Bill Payne; Billeting Committee, Edna Austin; Publicity, Bob Beeney; Finance and Prizes, Lorne Coburn; Welcoming Committee, L. A. Pritchard; Treasurer, Gord McKay. The Carnival chairman is Charles Brandon and the secretary is Jean Fergus.

The formation of the Minden Monarchs this year could not have been realized without the support of two of the most loyal hockey fans in Minden. Floyd Hall and Lawrence McKnight worked many hours trying to round up enough interested men to organize an executive to handle the team. Both of these hockey enthusiasts have supported the team over the last few years and were worried that if senior hockey had died this year it might never make a comeback. The executive remains the same as last season with the exception of Dave Sawyer who is taking over the coaching duties. Last week Ray Morris, convener for the Ontario Hockey Association in the Haliburton-Muskoka area was in Minden and I had an opportunity to talk to him for a few minutes. A meeting will be held with executives from all teams that are interested in entering Intermediate "C" hockey on November 19th and it is expected to be held in Huntsville. At this time it looks as if teams might be entered from Huntsville, Sundridge, Parry Sound, Port Carling-Bra'ebridge, Gravenhurst and Minden. Penetang, the team that knocked the Monarchs out of the playoffs last year, are reported to be skipping the intermediate ranks and are going to enter a team in a junior league. It has been suggested that the Monarchs would play home and home four-point games with Parry Sound and two away and two home games with the other teams. Bucko McDonald is back at the helm of the Sundridge Beavers and no doubt will have his team in tip top shape.

The Minden Minor Hockey Association held a meeting on November 7th to discuss a report that was presented to the executive by President Ralph Hussey and Treasurer Mike Ratuszny who attended the Ontario Minor Hockey Association annual meeting that was held at the King Edward Hotel in Toronto. One of the resolutions that was passed by all the delegates at the Toronto meeting concerns the wearing of headguards. Every youngster must wear a helmet or else he cannot play. This is in the Bantams and under class only. Ralph mentions that there was a turnout of 573 interested people at the annual meeting. The Minden Association plans a meeting with the coaches, managers and sponsors of all the teams and it will be held on November 25th at 8:30 p.m. in the Recreation Centre. The Association is going to approach the Winter Carnival Committee to see if time is available on Friday night during the Carnival from 6:30 to 9:00 for Minor Hockey exhibition games.

Craig Gartshore and Paul Yearwood of Minden and Jim Scheffee of Haliburton have survived the player cuts so far with the Lindsay juniors and are to become regulars with the team.

HI-SCHOOL NOTES

Lakefield, Fenelon Falls and Haliburton High Schools competed in the annual girls Volleyball Tournament. Lakefield and Fenelon Falls hold the Senior and Junior Championships respectively.

Marilyn Rennick, valedictorian at the Haliburton High School graduation, sent a letter of thanks to the students and Student's Council for the beautiful bouquet of roses presented to her at the graduation ceremonies. Msis Rennick is now at Carleton University, Ottawa.

The Haliburton High School Curling Club hopes to begin curling again this year as early in December as possible.

Some of the school's athletes made a good showing in the Kawartha District Cross-Country Race held at Lakefield. The individual champions in the Junior age limit who entered in 1.7 mile race were: Rod Hendren (Lakefield), Brian Tice (P.C.-V.S.), Ron Wood (Adam Scott). The intermediate champions were: Wayne Barnard (Kenner), Alec Allison (Port Hope), Terry Edgerton (P.C.V.S.). The senior champions were: John Reesor (Lindsay), Andy Smith (P.C.-V.S.), Glen Fallis (Millbrook). The latter two age groups were contestants in the 2.9 miles distance race.

The first ten finishers in each division represented the Kawartha District in C.O.S.S.A. Cross Country Championships held in each division also qualified.

ROTARY MEETING

Rotary meeting of Nov. 4 was well attended with a few hunters putting in an appearance. President Fred Griffin was away due to illness, vice-president Harry Cowan in charge.

The speaker for the evening was Mr. Archie Stouffer who gave a very interesting talk on his recent trip to Rome and extended travel to other parts of the Continent. Mr. Stouffer's talk was made more interesting by the large number of colored slides which he was able to show us.

Mr. Stouffer was thanked by Rotarian Don Berry and in appreciation of his pictures and description he was presented with one of the new Haliburton County Tartan ties.

The attendance captains, Bob Gorrie and Vinton Loucks would appreciate all members making an all-out effort to be present at the next two meetings.

BYLAW OFFICER

APPOINTMENT BYPASSED

Anson, Hindon and Minden Council decided after advertising the position not to appoint a bylaw enforcement officer at this time. Two applications had been received for the job, one from Reg. Hicks of Ingoldsby and another from Jack Johnson of Minden.

Council decided to discuss proposed changes with regard to the duties of this office and possibly re-advertise the revised job opportunity at a later date.

CHAMBER OF COMMERCE

The Haliburton Highlands Chamber of Commerce are to hold their annual meeting on Tuesday, November 19th at 8:00 p.m. at the Haliburton County District High School. President Barbara Dawson will present a report on Chamber of Commerce activities and an election of officers will take place. The meeting will undoubtedly be informative and interesting for the people attending. The Highlands of Haliburton Tartan and finished articles will be on display. Some of the members of the Chamber of Commerce will see the new Tartan for the first time.

WOLF BAGGED NEAR

MINDEN

Wolves have been reported close to Minden town and also in Lutterworth Township. Roy Collis of Minden shot a wolf near the town at the back of Minto Marine and other wolves are reported shot near John Hounsell's farm where it is understood some sheep have been lost.

In recent weeks other wolves have been reported in the Gelert and Donald area with loss of sheep and in each case they

have been reported closer to the towns and farms than usual.

Pete McGillen writing in the Toronto Telegram reports that hunters in the Tory Hill area blame lack of success on wolves. Tracks are reported as numerous and the hunters heard the predators howling at night.

Mr. McGillen states that veteran guide John Woods of Harwood Hunt Club which operates in the Tory Hill area claims he has never seen as many wolf tracks nor heard as many wolves.

WARP and WOOF

It's been really tough sledding this month . . . (no snow).

Our last instalment of The Incredible Tree, which includes the Forester's Prayer.

The Forester dedicates his life to the service of the trees. Wide is his knowledge and profound his feeling for them. He walks the woods encompassed by silence, by the scent of the evergreens, and by the miracle of the forest about him. He scans the bark, the boughs, the foliage. He sees youth, maturity, and decay. He senses the life about him and a kinship with his immobile friends. Unspoken arises his supplication in which all may join for it is the petition of a preceptive man:

"O Lord, who watches over the seeds in the soil and the flowers in the field, look with favour, we beseech Thee, on Thy wondrous creation, the manifold trees in the great and bountiful forests. Guard them from the terrors of fire; protect them from the ravages of disease; save them, both great and small, from wasteful destruction by wanton hands. And grant that, under Thy tender care, they may grow and prosper and, joining with the winds of heaven, ever sing Thy praise with joy and gladness."

Copies of this booklet are available upon request from the Canadian Pulp and Paper Association, Sun Life Building, Montreal.

Is the Hunter's Moon waxing or waning? It's the Silly Season for Some, who don't know a deer from a cow, a moose from a tractor, and some even shoot their friends . . . or were they really their friends?

Here's the Duck Hunter's Song.

The poor duck hunter in his blind,
Chilled in front, wet behind:
It's been seven hours since he fed,
And more hours since he's been in bed,
It cost him near a hundred bucks
To hide himself from silly ducks,
Which presently ere day dawns dim,

Will rise and hide themselves from him.

And then there's the story about the two fellows all ready to set out hunting . . . loaded the boat with tent, sleeping bags, some food, six cases of suds, and sundry other items . . . cast off the line, jumped into the boat and the boat promptly sank to the bottom of the river!

Since it was nearing one hunter's birthday, his loving wife bought him an expensive hunting jacket. While hunting he got tired and cold, so built a small fire and folded up for a short snooze, the fire blazed up, the hunter awoke with a whoop and a holler, his jacket was on fire . . . Cool reunion with the little woman on return home.

A party of duck hunters creeping cautiously along the shore, spied a flock of beautiful ducks in the reeds off shore. Crouching low, they edged within shooting range and let go a barrage that just about ruined somebody's fine flock of decoys!

Two old timers argued loud and long over the merits of their respective rifles of different calibre, finally ending up by trading guns for the day. When in the bush, and miles apart, they discovered they had forgotten to trade ammunition!

Then there was the man who walked out the first day, and left his licence sitting on the window sill. His wife noticing it, sent someone after him to the next house, where he had called in. This time he left it on their table. Out in the bush, the first man he met was the game warden, who asked him for his licence. Luckily, he had an honest face and the game warden believed his story.

Added to the long list of those who saw lots of deer, had good chances, but missed, and those who had "borrowed" rifles or were in "unfamiliar territory", is the fellow who hunted all day, every day, and when three deer popped out, and nearly run him down, he jumped behind a bush and couldn't shoot to save his life! Buck fever?

Some interesting facts from LODA:

Crowe Lake, near Marmora, is noted for it's record catches of muskie, while the village is the site of the historic O'Hara Mill, a relic of the pioneer past of the district.

The first muskie hatchery in the Lake Ontario Region was established on the Pigeon River near Omeme, in 1927.

One of the province's favorite vacation spots, the Highlands of Haliburton, boasts over 600 lakes. These waters contain salmon, trout, speckled trout, bass, pickerel and maskinonge. Here also is the renowned wildlife sanctuary, Algonquin Provincial Park.

Highway No. 35 from Lindsay to Dorset was built in 1934, covering acreage used as a hunting ground by the Indians from the Lake Simcoe area many years ago.

The Annual Minden Winter Carnival brings visitors from miles around to watch and participate in sports of all kinds. Competitions include log sawing, ice fishing and a Carnival Queen contest.

THE FLU:

When your back is brok and your eyes are blurred, and your shinbones knock and your tongue is furred. When your tonsils squeak and your hair gets dry, and you're doggone sure you're going to die, and you're skeered you won't and afraid you will, just get to bed and have your chill, and pray the Lord to see you thru — for you've got the flu, boy, You've got the flu! So when the flu epidemic threatens remember, assure yourself of nursing service by being the first member of the family to get sick.

HOME ON THE RANGE

Paprika Snitzei

Two tablespoons bacon drippings. One medium onion, chopped. Steaks or chops as needed or six pieces round steak. Flour to dredge, one teaspoon salt, half cup water, one cup sour cream, one teaspoon paprika. one teaspoon celery seed. Simmer onion in bacon dripping until soft. Dredge serving pieces in flour. Remove onion from pan and brown steaks lightly in drippings. Add salt and water and simmer 15 minutes. Add onions and all other ingredients. Cover and cook over low heat 1½ hours.

Diamonds: Women never look for pearls in oysters — it's much easier to get a diamond from a nut . . . Now don't let THAT MAN see this!

SNOWDON AUDITOR'S REPORT

TOWNSHIP OF SNOWDON

AUDITOR'S REPORT

To the Ratepayers, Reeve and Council of the Township of Snowdon

We have audited the books and records of your Township for the year ending December 31, 1962 and have prepared the attached statements. We comment as follows:

REVENUE FUND BALANCE SHEET

Cash on Hand - \$2,300.36

The above amount shown as cash on hand represents the difference between the tax collections listed in the tax cash book for the year and the tax collections deposited in the Township bank account to December 31, 1962. An attempt to verify the cash on hand at December 31, 1962 by tracing cash receipts and bank deposits from January 1st to February 4th, 1963 produced the following results.

December 31, 1962 ...\$3,297.87
Add cash receipts from
January 1 to February 4, 1963 (as per tax cash book) 832.99
\$4,130.86
Less bank deposits from
January 1 to February 4, 1963\$3,133.35

Apparent cash shortage at February 4, 1963 ..\$ 997.51

We have directly confirmed all tax arrears listed at December 31, 1962. The above apparent cash shortage is therefore subject to further investigation of any amounts reported as paid during 1962 but not listed as tax collections in the cash book.

During the course of our audit, we contacted the former clerk, treasurer and tax collector for an explanation of the apparent shortage but no satisfactory explanation was received by us.

We therefore recommend that Council contact the bonding company concerning the apparent shortage as soon as possible.

Sundry Accounts

Receivable\$800.00

This represents the difference between the purchase price of the right of way from the C.N.R. for \$2,000.00 and the sale of lots to ratepayers totalling \$1,200.00.

Due from Province of Ontario\$8,200.94

This represents the 1962 road subsidy due from the Province of Ontario at December 31, 1962.

Taxes Receivable \$13,828.68

During the course of our audit we directly confirmed all tax arrears. A complete breakdown of the taxes receivable by years is contained in Schedule 5.

Deferred Charges\$2,987.81

This is an accumulated under-levy by the Township for county and school purposes as per Schedule 8.

Prepaid Debentures

Assumed \$45.15

This amount has been carried over from 1961 when a prepayment on the debenture assumed from Sommerville Townships occurred and should be adjusted on the 1963 payment to Sommerville.

Bank Overdraft \$3,166.48

All banking transactions for the year were audited by us and the bank balance at December 31, 1962 were confirmed directly with the bank.

Temporary Loans \$10,000.00

This represents a Township loan from the Canadian Imperial Bank of Commerce. It has been verified directly with the Bank.

Accounts Payable \$185.63

This represents hydro and telephone arrears placed on the 1961 tax roll for collection by the Township.

Debentures Payable \$432.73

This represents the 1962 assumptions from Anson, Hinden and Minden on by-laws No. 112 and No. 334 as shown on Schedule 2.

Due to Schools\$264.11

A complete breakdown of the amounts due to and from the various school boards may be found on Schedule 9A.

Reserves \$2,028.26

No changes have been recorded in the reserves during the year.

Surplus \$13,083.24

The surplus for the year amounted to \$4,711.85 after bringing forward a surplus from 1961 of \$5,586.66 to the 1962 estimates.

GENERAL

In 1962 separate residential and commercial rates for elementary school purposes were not levied as required by the Residential and Farm School Tax Assistance Grants Act.

Subject to the qualifications concerning the apparent cash shortage, we hereby report that in our opinion:

(1) The financial transactions which have come under our notice have been within the powers of the Municipality.

(2) The audit has been conducted in accordance with the instructions of the Department of Municipal Affairs.

(3) The financial statements present fairly the financial position of the Municipality as at December 31, 1962 and the results of its operations for the year ended on that date.

BETWEEN THE HAYSTACKS

By the Farmer's Daughter

The wife of a knife-thrower . . . (her part of the act was to stand against the wall while her husband's knives came within a fraction of an inch of her head) . . . suddenly fell ill, and her mother (for want of another substitute) replaced her. As it was well known how the husband hated his mother-in-law, this knife-thrower's next performance was observed with excitement — even by the rest of the performers on the show. When the first knife actually hit the wall with a quivering thud, a surprised voice broke the tenseness with: "By gawd, how do ya' like that? He missed her!"

Sometimes it seems like there's just no appreciation at all — like for instance, the parson who was giving his first sermon in the big, new church, and he celebrated the occasion by really teeing off on the sinners. After the service he met one of his outspoken parishioners. "How did you like my sermon?" he asked. "Well, Reverend," said the member, "After raising all the money to build this new church, we sorta figured you'd quit yelling at us."

The story is told of an eccentric artist in the south of France who cultivates carp in a pool in his garden. When the carp attain full growth, he catches them, skins them, and makes men's wallets out of the skins. He is, in fact, the only man on earth who is noted for his carp to carp walleting.

Then there's the story of a certain doctor who always dropped in at his favorite bar for a snifter on his way home. As usual, he gave his customary order: a daiquiri. The barkeep, who was a friendly sort of a fellow and knew his customers better than they sometimes knew themselves, jokingly dropped a

hickory nut into the drink. The doctor, somewhat puzzled at this asked: "How come this nut is in my drink?" To which the jovial barkeep replied: "That's a hickory daiquiri, Doc!"

Three old ladies in a home for the mentally disturbed were sitting on their rockers and chatting. "Know what I wish?" said one. "I wish a big, handsome man would come here and take me away." To which the second lady turned to the third and said: "Sarah ain't gonna be with us long. She's beginning to talk sense."

The Ontario Safety League quotes two items from the Sun Oil Company's magazine detailing surprises in the life of service station operators:

About to call the police after a woman spent two hours in the restroom, a dealer watched her emerge with a basket of clean laundry.

After her car had knocked over a gasoline pump, a woman driver pointed to the man beside her, told the dealer, "My husband always tells me when I'm getting too close, but this time he didn't say a thing."

Throttle and bottle make a deadly mixture, the Ontario Safety League reminds drivers.

"Through lack of social responsibility the human race has produced with the motor vehicle on the roads a total problem which for sheer brutality surpasses most of history's worst eras of lawlessness": Chief Inspector G.

Gates, of Great Britain, quoted by the Ontario Safety League.

TORONTO — Fur sales by Ontario trappers at the North Bay sales for 1962-63 held by their association's sales service reached an all-time high of \$755,641.49, an 86 per cent increase over 1961-62. The market was reported steadier than in previous years and most species showed a price increase of 15 per cent

to 20 per cent. All species except martin shared in this increase. The gross volume of sales was more than equal to the dollar value of sales for any two previous years.

Devil Bush Deal

The cost of devil exorcizing can run pretty high in Liberia—up to \$4,000, in some cases. So when West African Explosives Limited (EXCHEM, a subsidiary owned jointly by C-I-L and Baird Chemical Corporation of New York) learned that the site of one of their new plant buildings was in a Liberian devil bush, they got set for some hard bargaining.

The chiefs of the tribes met with management and quoted their price for driving out the devil: one cow, five bags of rice, five tins of rum and \$800. After lengthy negotiations they accepted \$800 cash in settlement. What followed is described by R. S. Caulfield, general manager.

"For six days the devil bush rang with shouts, screams and drum beate; then at midnight on the sixth day exorcizing began. I have no idea what form the ceremony took, but at dawn the natives moved out and we moved in."

Ubysey Ayrshire Cow

Establishes New All Time Record

Ubysey Betty Jean, a young cow owned by the University of British Columbia, Vancouver has just broken the All Time All Canadian record for junior two year olds on twice a day milkings. She produced 15,284 lbs. milk, 682 lbs. fat, 4.46 per cent in 365 days to establish a new butterfat record which has been held since 1959 by Hammonds Class Primrose 2nd, owned by Bowaters Pulp and Paper Mills Ltd., Corner Brook, Nfld.

Systemics for Warble Control

Autumn is warble - control time. Beef, dairy heifers and bulls can be protected from warble grubs if they are treated in time. Treatment should take place sometime from September 1 to November 30 if you are using one of the new "pour-ons".

"FAIR" GAME — A bit of legal advice from the Winchester Western Hunter Safety Clinic, to those anticipating the fall hunting season. It is illegal to hunt pheasants or ducks with a rifle. And, incidentally, you may shoot an elk on a deer licence.

1964 TERM NIGHT CLASSES

Commencing Tuesday, January 7, 1964
(8:00 p.m.-10:00 p.m.)

The following classes may be offered this year if there is sufficient registration:

1. Readings in Modern English Literature
2. Law — a survey of legal matters which relate to the citizen (contracts, mortgages; wills and estates).
3. Bookkeeping — elementary record keeping.
4. Typewriting — for those who wish to learn to type.
5. Art—Beginners
6. Art—Advanced
7. Choir
8. Photography—Beginners
9. Physical Fitness—Women (8:00 p.m.-9:00 p.m.)
10. Physical Fitness—Men (9:00 p.m.-10:00 p.m.)
11. First Aid for Farm Animals
12. Hairdressing—Cutting, setting and styling.
13. Sewing—Beginners
14. Sewing—Advanced
15. Millinery—Beginners
16. Millinery—Advanced
17. Basket Weaving
18. Drafting and House Blueprint Reading
19. Auto Mechanics
20. Machine Shop Practice
21. Care and Repair of Small Motors
22. Electricity
23. Horticulture and Landscaping

A class will be organized if, and only if, there are sufficient registrations to warrant it.

Enrolment fee is \$3.00 for the entire 12 weeks' course. This fee is payable on opening night, January 7. Preference will be given to those who apply first. December 11 is the deadline for receiving applications. Each week between now and December 11 the newspapers will publish the number needed for each course and will also indicate when a course is filled.

Students who enrol early will be informed of the materials they will need for their course before Christmas so that these may be purchased and that the first night of Night School may be a night of instruction.

Please state first and second choices.

LOST

Brown camping mattress on the Ingoldsby Road. Finder please phone Minden 238.

OPP REPORTS

GOOD HUNTING

Constable E. Bush reports that although kills are not too numerous in his patrol area, there have been no hunter accidents or persons lost.

In the Dorset area and Sherbone township, hunters report poor success, he said, but in the Minden area it has been a good season to date.

"There doesn't seem to be as many hunters out as in other years", said the constable, "and I think the weather has kept many of them away."

Cpl. J. Eastwood of the Minden detachment was successful in bagging his quota — a nice buck — the first day out, as did Leigh Harrison, caretaker for the same detachment office.

The corporal is hunting in the Minden area and Mr. Harrison is camped in Minden Township.

Checking stations for the deer count survey are ni the same areas as last year reports the Fish and Wild Life branch which are Burleigh Falls, Norland and Union Creek (just south of Kinmount).

Officials say they are required to record about 250 age samples which will enable the departments to determine hunter kills in the district.

KIN BINGO WINNERS

Two visitors to a recent Kinsmen Bingo went home richer than they came when they shared a \$610 jackpot between them. Mrs. E. Austin of Kinmount and Mr. Nesbitt of Coboconk were the fortunate winners.

Tony Wens of the famous Radio Scrapboko on Columbia Broadcasting System before the war once said the secret of success is to get started! "Don't be afraid to make a start. That's where most of us fall down. We get all kinds of big ideas, all worked out, and then fizzle out because we haven't the courage to make a start."

—BETWEEN THE HAYSTACKS

Poultry

The smallest laying flock in a number of years coupled with a slightly reduced rate of lay will keep egg production below that of last year throughout the balance of 1963. Eggs for processing will continue to be imported mainly from the United States.

Prices are expected to be higher this fall than a year ago. Last fall, prices to producers for Grade A Large eggs at Toronto averaged 45.5 cents per dozen.

Broiler chicken has been plentiful this year and marketings should continue above last year's throughout October and November. Demand has been very good and prices have remained firm. However, with increasing competition from turkey and red meats this fall, continuing heavy supplies may bring about a more than seasonal decline in prices.

SATURDAY, NOVEMBER 16, 1963

MINDEN MUNICIPAL BUILDING

(Continued from front page)

There is of course no reason why the new building should not face the back lots of the main street buildings and as one councillor said, "There is no reason why people can't clean up their back yards."

Meanwhile the arguments for and against the new location go on. "It should have been near the liquor store," say some citizens, "It should have been on the way up to the hospital," say others. Arguments have gone on too in the Council chambers as members of council have tried their best to provide the citizens of Minden with a Municipal Hall of which they can be proud, at a price they can afford, in the most suitable place, bearing in mind the anticipated growth and development of the town in the future.
